

OCTOBER 2022 NEWSLETTER

**Welcome to the October issue
of the Advance Anti-Slip
Surfaces newsletter**

know safety, work safely

Make safety at work your priority

October is National Safe Work Month

national safe work month
2022

October is National Safe Work Month. A time to commit to building a safe and healthy workplace.

The theme for 2022 is Know Safety, Work Safely - encouraging everyone to make health and safety in the workplace a priority.

Being healthy and safe means being free from physical and psychological harm. No job should be unsafe and no death or injury is acceptable. A safe and healthy workplace benefits everyone. This is why, during October each year, Safe Work Australia asks businesses, employers and workers across Australia to join National Safe Work Month and commit to building safe and healthy workplaces for all Australians.

For more information go to: [National Safe Work Month | Safe Work Australia](#)

Advance Anti-Slip Surfaces is committed to assisting employers, and employees, to provide a safe workplace for all pedestrians, by offering easily downloadable product, information and technical guides, hazard identification checklist, as well as our free "10 Steps To A Safe Non-Slip Workplace" poster, that we can send to you.

For more information go to: Advance Anti-Slip Product Brochures and Flyers | Advance Anti-slip Surfaces (advanceantislip.com.au)

For more information or to discuss your requirements, please [contact us](#) today.

Our new Company Profile and Product Booklet is now available for your review.

PRODUCT SPOTLIGHT

Advance Anti-Slip Stair Nosings are a Class 1, ready to install, metal backed retrofit safety product with a durable antislip surface designed for application in slippery or hazardous areas to provide firm footing.

Stair Nosings can be produced to suit any type of stair, i.e., Steel mesh/grating or grille, checker-plate, concrete, timber, Fibreglass (FRP), etc...

PRODUCT FEATURES

- Provides secure footing,
- Improves pedestrian safety,
- Highlights the step's leading edge,
- High impact resistance.
- Excellent chemical & UV resistance.
- Long effective life,
- Quick and easy to install.

METHOD OF INSTALLATION

Over Bar Mesh Grating or Grille Mesh:

Use universal clamp assembly.

Over Steel-Aluminium-Masonry-Timber:

Use self-tapping screws, countersunk screws or rivets with a silicon sealer under the edges.

Over Concrete:

Drive nails with a silicon sealer under the edges.

Let's prevent slips trips and falls on pedestrian walkways! Take care and stay safe over the coming months. Stair, step and landing safety is vital for every pedestrian access area. Advance Anti-Slip has non-slip elements to suit every situation.
