

NOVEMBER 2023 NEWSLETTER

Greetings from Advance Anti-Slip Surfaces. We are excited to present the latest edition of our newsletter, and this time, we're diving deep into the world of safety with an exclusive focus on "SafePlates"— a most trusted product for anti-slip protection. Whether you're in the mining, petrochemical, industrial sectors, hospitality industry, or simply looking to enhance safety at home, SafePlates have you covered!

THE POWER OF ADVANCE'S SAFEPLATES: ELEVATING SAFETY STANDARDS

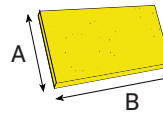

Safety should never be compromised, and that's where Advance Anti-Slip SafePlates come into play. These innovative anti-slip solutions are specifically designed to provide stability and peace of mind in various environments. Let us explore why our SafePlates are becoming a staple for safety-conscious individuals and organisations around the world.

SAFEPLATES

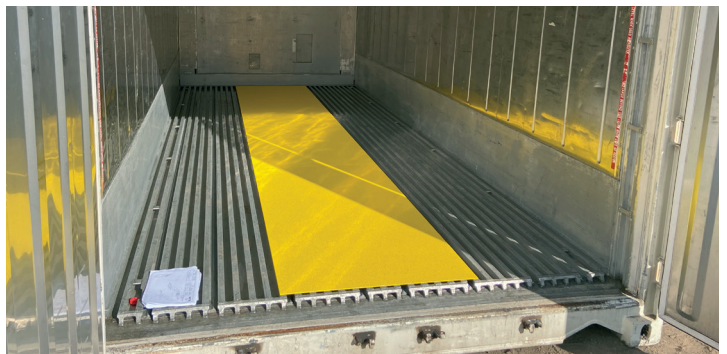

How to Measure Safeplates

- Metal backed with a carborundum grit and hardened resin surface
- High Visibility Safety Yellow
- Sturdy, Strong, resilient
- Easy to clean
- Australian Standards compliant
- Robust, chemical resistant, non-wearing
- Easy to install

KEY FEATURES OF SAFEPLATES

- **Unrivalled Slip Resistance:** SafePlates are engineered to offer superior traction, making every step taken a secure one, even in wet and slippery conditions.
- **Versatility:** These non-slip plates are suitable for a wide range of applications, from offshore platforms to industrial workspaces and residential settings.
- **Durability:** Crafted from high-quality materials, SafePlates are built to withstand heavy use and the harshest conditions, ensuring long-lasting protection.
- **Easy Installation:** Installing SafePlates is hassle-free, requiring no specialised tools or expertise. You can enhance personal safety in no time.
- **Customisation:** SafePlates come in various sizes and designs to cater to specific needs, ensuring a perfect fit for your space.

APPLICATIONS ACROSS INDUSTRIES

SafePlates are versatile and find applications in numerous industries:

- **Hospitality:** Enhance safety in commercial kitchens, bars, and restaurants.
- **Manufacturing:** Reduce the risk of accidents in industrial facilities and workshops.
- **Healthcare:** Maintain a safe environment in hospitals and healthcare facilities.
- **Education:** Protect students and staff in schools, colleges and universities.
- **Residential:** Elevate safety in your home, especially in wet areas like outdoor pathways and on mobility access ramps.
