

ANTISLIP SOLUTIONS FOR TRANSPORT & LOGISTICS

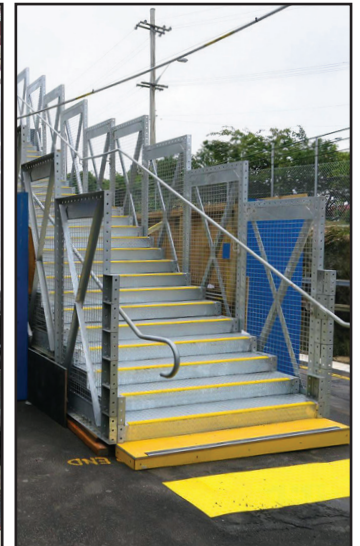

ADVANCE
ANTI-SLIP SURFACES P/L

30 years

Advance Anti-Slip Surfaces produces a varied range of custom-made Class 1, non-slip, metal backed, ready to install safety products designed to keep workers in the transport and logistics sector safe from slip, trip and fall incidents.

In our Victorian manufacturing facility, we make antislip products for all types of pedestrian access safety requirements. From nosings for the rear truck step on the back of a delivery vehicle, ladder rung covers for freight rail carriages, through to nosings for aircraft access entry stairs.
