ANTI-SLIP SURFACES P/L

35
years

Advance Anti-Slip Surfaces provides a trusted range of durable, metal-backed antislip solutions designed to improve safety in any setting.

From stair nosings and ladder rung covers to Safeplates and self-adhesive antislip tapes, our products are built to withstand the toughest environments and deliver reliable, long-lasting traction where it matters most. Whether protecting high-traffic areas or addressing specific hazards, our antislip solutions give peace of mind by helping prevent slips and falls in challenging industrial, commercial, and outdoor applications. As a dedicated manufacturer with over 35 years of expertise, Advance Anti-Slip Surfaces ensures that our products are not only high-quality but also easy to install and maintain, making us the go-to partner for safety-focused businesses. Choose Advance Anti-Slip Surfaces for proven performance and products that stand up to even the harshest conditions. Here are some of our vast non-slip product range:

1. Stair Nosings: Metal-backed antislip stair nosings provide a durable, slip-resistant edge for steps, enhancing safety and visibility in high-traffic areas. Made to withstand heavy usage, they are ideal for industrial, commercial, and outdoor applications where stairs are exposed to weather or heavy wear. Designed to prevent slips on stair edges, they are particularly useful in ensuring compliance with safety standards and are available in a range of colours and finishes to suit any environment.

2. Ladder Rung Covers: Antislip ladder rung covers offer a safe, sturdy grip on ladder rungs, reducing the risk of slips and falls. These rung covers, typically crafted from resilient, corrosion-resistant metal, are easily installed onto existing rungs and can handle the extreme conditions found in industrial, mining, and marine environments. They provide long-lasting performance and require minimal maintenance, making them an essential upgrade for workplace safety on frequently used ladders.

3. Safeplates: Safeplates are antislip metal-backed plates that can be applied to floor surfaces prone to moisture or contamination, such as walkways, ramps, platforms, or landings. Designed to withstand high foot traffic, they provide reliable traction in wet or oily conditions, helping to prevent slips and falls. With their durable construction, Safeplates are highly resistant to wear and corrosion, making them ideal for use in challenging environments like factories, food processing facilities, and outdoor areas.

4. Self-Adhesive Antislip Tapes:

Self-adhesive antislip tapes are a flexible solution for adding traction to slippery surfaces in a quick and easy manner. With an easy to fit design, they offer enhanced durability and adhesion on a variety of substrates. Ideal for both temporary and permanent installations, these tapes are suitable for stairs, ramps, and walkways in both indoor and outdoor settings. Resistant to wear, they are a cost-effective way to improve safety and are available in different textures and colours to meet visibility and safety standards.

Thank You for an Amazing Year!

Dear Valued Customers,

As the holiday season draws near and we prepare to celebrate Christmas and welcome the New Year, we want to take a moment to extend our heartfelt gratitude for your unwavering support throughout this year.

At Advance Anti-Slip Surfaces, we are deeply grateful for our customers—it's your trust and loyalty that inspire us to strive for excellence in everything we do. Each of you has played a vital role in our journey, and we cherish the relationships we've built along the way.

This year has brought its share of challenges, but it has also highlighted the strength of our community and the resilience we share. As we look forward to 2025, we are excited about the opportunities that lie ahead. We are committed to enhancing our offerings and service to better meet your needs and expectations.

We sincerely appreciate your continued partnership and trust in us. Your feedback and support drive our passion to innovate and improve, and we cannot wait to embark on this next chapter with you.

Wishing you a joyous Christmas filled with warmth, love, and precious moments with family and friends. May the New Year bring you happiness, health, and success in all your endeavours.

Thank you once again for being such wonderful customers. We look forward to serving you in 2025 and beyond!

Warmest wishes for the Festive Season!
